

The RN Network

CAPABILITY STATEMENT

Your hard-to-fill healthcare roles, filled.

Woman-Owned Small Business · The RN Network, LLC · UEI NDN9XN2P7EW6

Company Overview

The RN Network, LLC is a woman-owned small business in Ohio that helps public employers find, hire and keep nurses and healthcare staff. We have served the nursing workforce since 2009, and we bring together a nursing-only job board, hands-on human recruiters, contract nurse staffing and AI consulting so your agency can fill critical roles without adding permanent headcount.

Core Competencies

- **Nurse and Clinical Staffing** — Registered nurses, LPNs and nursing assistants on contract and temporary assignments. Every clinician is a W-2 employee, never a 1099 contractor.
- **Hourly Sourcing and Recruiting** — Dedicated recruiters who work as an extension of your HR team, plus interim talent acquisition leadership. Scale up or down week to week with no placement fees.
- **Nursing Job Postings and Recruitment Advertising** — Job advertising on RNNet.org, a nursing-only career site, putting your openings in front of nurses actively building their careers.
- **RN Workforce Insights™** — Market intelligence on nurse time to fill, turnover and wages to support staffing plans and budget decisions.
- **AI Consulting, Compliance and Training** — AI readiness assessments, workflow automation, AI governance and compliance advisory, and hands-on AI training for HR and recruiting teams.

Differentiators

- **Nursing is all we do** — A nursing career brand since 2009, built around how nurses search, apply and decide.
- **Real recruiters, not bots** — Candidates hear from a person who represents your agency and sells your mission.
- **Flexible by design** — Start fast, scale weekly and pay no recruiting fees or benefits costs.
- **Leadership you can verify** — Two decades of healthcare talent acquisition leadership. M.S. in Leadership and Organizational Development, Change Management, Six Sigma Lean, AI Compliance and Agentic AI certifications, and Securiti AI Security and Governance certification.
